2022 GO Ahrtal

- Dreams, Hopes and Futures

The short-term exchange project '2022 GO Ahrtal' continued the long-standing tradition of connecting German and Scottish university students across borders and helping them face local challenges as global citizens. After a week of interdisciplinary lectures in Mainz by staff from the Johannes Gutenberg University Mainz and the University of Aberdeen which dealt with topics such as climate justice, floods in Europe's history, the geologic background of climate change and even floods in literature, the Scottish and German students were well prepared for their project work with two schools in Ahrweiler.
